

# CREATIVE Production In Social Enterprises for Migrants and Asylum seekers

CREATIVE PRISMA project targets migrants and refugees or asylum seekers with the aim of training them so they can acquire the skills that will enable them to have access to employment. The theme proposed is training in social entrepreneurship in the fields of **fashion** and **creative industries**. The creative industry helps migrants, asylum seekers or refugees to maintain the cultural identity of their homeland, while it gives them a passport for inclusion in the host society. Working in these organisations will not only bring them income, but it will also help to tackle discrimination, segregation or marginalization and prejudices as well as foster intercultural dialogue.
